

DPAMDuane Phillips Architecture & Masterplanning

PROFILE

FIRM PROFILE

In alliance with regional firms based throughout the continent, DPAM provides masterplanning and design services for a wide variety of projects. The firm's network of skilled practitioners is extensive and can be tailored to fit the needs of clients that range from government agencies and development companies to individual landowners.

DPAM is a partnership of practitioners and collaborators who are committed to the skills and techniques of traditional urbanism. With a combined total of over 25 years of practice, DPAMs experience spans the history of the revival of traditional urbanist planning and design, including new towns and communities, redevelopment projects, and sustainable design in Europe and the Middle East.
